It is with great honour that I present the Office of the Attorney-General's Annual Performance Report for 2025, a testament to our unwavering commitment to excellence in public service and justice delivery. This report encapsulates our journey towards strengthening governance, enhancing legal frameworks, and advancing national development priorities.

Performance analysis demonstrates that the Office achieved strong results across its core functional areas. Legislative drafting output exceeded the annual target, with **thirty-nine (39**) Bills and three hundred and **thirty (330)** Statutory Instruments completed. The number of Bills before Parliament increased significantly to seventeen **17 Bills** by the end of 2025. This reflects strengthened technical capacity and improved internal coordination which hitherto had evaded the Office. In the area of civil litigation, the Office attended to **one thousand eight hundred and eighty-five (1,885)** cases, underscoring its central role in representing the Government in constitutional and civil proceedings. Landmark victories were recorded in both national and foreign courts. For instance, the Office won the case that had been filed in the United States of America against the Government of Zimbabwe (Ministry of Mines and Mining Development), thereby saving the country USD120 million, which amount was being claimed against Zimbabwe.

The Office also attended to **seven hundred and ninety (790)** matters that required legal advice in areas related to contracts, agreements, legal opinions and Memoranda of Understanding.

Through a comprehensive midterm review and strategic realignment process, the Office commenced its transition to the NDS2, ensuring that all initiatives remain aligned to Vision 2030 and the broader national transformation agenda. The Office's commitment to excellence, innovation, and public service, upholding the principles of justice, accountability, and good governance remains a top priority. I am confident that the Office will continue to navigate challenges, deliver quality services, and contribute to Zimbabwe's development and growth.

The unwavering commitment by Board Members to general oversight of key processes was key is putting the Office on a trajectory to sustained success.

V. MABIZA
ATTORNEY-GENERAL OF THE REPUBLIC OF ZIMBABWE

2 PREFACE BY THE EXECUTIVE SECRETARY

It is with great pleasure that I present the 2025 highlights for the Office of the Attorney-General. The reporting period was characterised by significant growth in the operations of the Office, and the development of quality management systems.

The Office utilised **97.76%** of released funds, with employment costs at **99,91%,** use of goods and services **96,82%** and acquisition of financial and non-financial assets at **97,66%**. In comparison to the budget, overall utilisation was **78,05%** largely due to none release of the budget by Treasury. The Office mobilised **USD 312,775.41** in non-traditional funding, mainly from conveyancing and strategic partnerships with cooperating partners.

Strategic recruitment and training initiatives were enhanced, culminating in improved productivity and the growth of the Office's human capital base to two hundred and thirty-two (232). A landmark high level litigation training programme was facilitated by the Judicial Services Commission. The Judges of Constitutional Court, Supreme Court, High Court and senior legal practitioners from private practice served as key resource persons.

Various policies relating to Audit, Human Resources, and ICT were formulated and implemented during the reporting period. Despite resource constraints and emerging legal threats, the Office remained proactive, driving reforms to optimize administrative processes, deploy personnel effectively, and instill a culture of excellence, transparency, and accountability. ICT equipment was procured during the reporting period in response to identified shortages in the tools of the trade.

The Office successfully completed the transfer of State Attorneys from Ministries and integrated the same into the approved structure. This milestone brought to an end the hitherto fragmentation in the provision of legal services to the Government. To enhance staff morale, conditions of service for State Attorneys were revised to align them with those of counterpart institutions pursuant to the need to improve morale.

The Office launched its official website in 2025 and deployed digital platforms such as the Electronic Bill Tracker to enhance transparency and stakeholder access to legal information. The Legal Information Management System [E-ILIMS] was developed during the 4th Quarter of 2025 and will ultimately lead to the automation of all key processes in the Office. The visibility of the Office was strengthened through the use of media platforms such as *X*, Facebook, and You Tube.

Other significant milestones for the Office in 2025 included the adoption of the first Five-Year Strategic Plan (2026-2030) that is fully aligned to NDS -2. The Plan is

anchored on enhancing excellency in the provision of legal services to the Government of Zimbabwe. An accompanying Annual Plan was also adopted.

Institutional expansion was achieved, with new offices being established in Harare and Chinhoyi. This promotes the geographic reach of legal services and sustain the devolution agenda in line with the Whole of Government Approach to business.

I am proud of our team's resilience and dedication, which has enabled the Office to attain a Client Satisfaction Index of **73%** for the year 2025. The same applies to the Employee Satisfaction Index of **61%.** Emphasis is now shifting to improve productivity through further availing adequate tools of the trade to officers. In this regard, I am grateful for the Support from the Ministry of Finance, Economic Development and Investment Promotion which enabled the Office to acquire vehicles and ICT equipment.

I would like to express my sincere gratitude to the Honourable Attorney-General, the Board, Management Team, all Officers and various stakeholders for their support and contributions during 2025. Their unwavering support has left an indelible mark on the operations of the Office and such continued support will propel the Office to greater heights in 2026 as the Office forges ahead in driving the 2030 development agenda.

Improved legal services delivery were tracked through two KPIs, legislative drafting backlog rate and client satisfaction levels. These offered insights into operational effectiveness and client impact.

Against an annual target of **60%,** the Office achieved a client satisfaction score of **73.7%,** based on findings from an independent survey. This positive outcome is largely attributed to the clearance of the legislative drafting backlog and improved staff retention, which enhanced service continuity and institutional responsiveness.

The Division played a key role in Joint Commissions, ensuring agreements align with national interests. It negotiated and facilitated two major agreements: Zimbabwe-Dangote Industries cooperation and Jindal Energy's Hwange power project.

24 QUALITY ASSURANCE AND ORGANISATIONAL COMPLIANCE

The Office boosted organisational efficiency through quality assurance and compliance, ensuring internal controls were applied, policies followed, and resources aligned with the Office's mandate. Objective reviews and assessments were conducted as guided by the approved Audit Charter. These focused on:

- Unbiased assurance and evidence-based audits;
- Clear reporting to senior management and the Audit Committee;
- Professional standards and ethical codes; and
- Safeguarding audit integrity.

This reinforced transparency, accountability, and confidence in the Office's efficiency and effectiveness.

25 Framework Challenges:

Adequate office space remained a key challenge during the reporting period. Treasury failed to avail financial resources to purchase properties that had been identified the Head Office and the Masvingo Provincial Office. Consequently, several Departments were temporarily housed through a costly lease with the Mining Insurance Pensions Fund, at approximately **ZiG700,000.00** per quarter. The Masvingo Office remained unfit for use, necessitating the identification of new leased premises. The Office operated with an insufficient vehicle fleet for both operational duties and conditions of service.

The delayed disbursement of funds by Treasury affected the smooth implementation of programmes. Planned activities were slowed or postponed, hindering operational efficiency, provision of the tools of the trade, and overall service delivery.
