Job Descriptions

Grade A

Assistant saw doctor–Assists saw doctor in sharpening cutters and saws.

Button Moulder–Covers buttons with material using manual button machine.

Clamper–Clamps/joins timber/boards together using a manual/pressurised clamping machine.

Cushion filler–Fills cushions by hand or machine in to cushion covers.

Foil/Veneer cutter – Cuts veneer/foil to attain the right size and shape using a guillotine/wire cutter/knife.

Orbital/Hand sander – Uses sand paper by hand/orbital hand machine to smoothen the product to be ready for polishing.

Loader/Driver Assistant – Loads finished/unfinished products in to a truck/container as per loading schedule or dispatch invoices.

Messenger – Collects/delivers letters and items to/from different organisations.

Packer/Wrapper – Packs/Wraps finished/unfinished goods as per the packaging list or size of each pack.

Paster Mixer/Spreader – Mixes paster with required chemicals and spreads the mixture on the design to attain the correct carvings.

Seamer (by hand) – Sews cushions by hand.

Tea Maker/Cleaner/Gardener/Office orderly – Makes and serves tea/beverage/food stuffs and washes kitchen utensils/cleans offices, factory, toilets/and cars using water – chemicals or cleaning tools. He/She also does general lawn mowing.

Toucher/Wood Filler/Wood Stopper – Fills joints, holes, cracks, runs, dents and brings it to final quality standard.

Weigher – A person responsible for weighing goods using a digital or manual scale.

Wire straightener (by hand) – Straightens wire to required standard using hands.

Grade B

Framer/Sub Assembler – Joins/assembles components together by using staple guns/clamps.

Bobbin Sander – Sands wood pieces to a final finish using a pressure powered hand tool machine.

Border Wire Clipper – Joins wire and springs to build mattress frames.

Chain Saw Operator – Cuts timber to required lengths/dimensions using chainsaw.

Edge Bending Machine Operator – Applies glue and edges/joins veneer on timber edges.

Flat Belt Sander – Sands wood pieces on a flat base type of sanding machine by pressing down the work piece to the sand paper.

Press Machine Operator/Laminator – Joins two or more pieces of wood/board/veneer/foil etc using glue on pressing machine which is hot or cold.

Narrow Belt Sander – Sands wood pieces to a required surface for polishing.

Security Guard – Guards and maintains security on the premises of the employer.

Spring Coiler (by hand) – Makes springs for mattress using hands.

Spring Fitter – Fits springs in to bed or lounge suite frames.

Stitcher/Taper – Joins two parts of veneer/foil to the required size using a stitching/taping machine.

Timber selector – Checks moisture content using a hand machine and selects the correct size and quality of timber to be fed on the mill.

Grade C

Assistant Boiler Attendant – Assists in loading and off loading firewood/coal to a boiler, checks and maintains a constant temperature of a boiler.

Bend/Orbital Saw Operator – Cuts wood/timber/board following the drawings or pattern.

Cross-cut Machine Operator – Cuts timber to the required length using a cross-cut machine.

Dimension Saw Operator – Cuts boards in to required sizes/levels.

Rip-saw Operator – Rips timber to the required size.

Surface Planner Operator – Planes a solid piece of timber to a required surface for polishing.

Table/Bench Saw Operator – Cuts timber to the required specification.

Tape Edge Machine Operator – Sews mattress panels and different thickness of mattress edges.

Thicknesser Operator – Planes timber to attain the correct thickness/width using a machine.

Grade D

Assembler – Assembles components together by use of hand tools to adjust the components so as to fit in when assembling/joining to make a unit.

Boring Machine Operator – Drills/dovetails/countersinks holes in to timber/boards using a single or multiple manual/semi-automatic boring machines.

Drum Sander Operator — Sands wide pieces of board or timber to smooth finish.

Edge Bending Machine Operator – Applies glue on edges/joins veneer/formica/ foil and any form of bidding on timber edges.

Final Fitter/Finisher – Completes a job up to final standard including final fitting of small parts (i.e. fitting rails, doors, locks, handles and glass mirrors).

Mortiser Machine Operator – Drills/bores/grooves/slots timber/board using mortise machine.

Spray Painter/Hand Polisher – Matches colours, mixes paint chemicals and applies a coat of paint/polish with pressured spray gun or by hand for a good quality finish and protection.

Stainer – Stains/changes the type of wood or timber to resemble the required colour finish.

Tailor – Sews the correct sizes of material according to the cutting sheet.

Upholsterer – Covers a wooden/metal frame with foam rubber and fabric to complete the product.

Tenoner - Sets up and operates single or double-end machine to cut or size, trim, groove, shape or match ends of Woodstock.

Wrapping Machine Operator by hand– Wraps boards/doors with pvc.

Grade E

C.N.C means "Computerised Numerical Control".

C.N.C Bend Saw – Cuts board according to the drawings or patterns.

C.N.C Operator – Operates a computerised programmed machine to produce components as per design.

Carver – Carves a piece of wood board according to design using an automatic machine or by hand.

Computerised Wrapping Machine Operator – Makes wrapping/packaging material according to specification.

4, 5, 6 Multi-Cutter Machine – Planes/moulds a rough piece of timber/wood on multiple faces to smooth finish.

Edge Slitter – Makes packaging boxes and folds using a folding machine.

Forklift Operator – Operates a forklift to load and offload goods.

High Frequency Machine Operator – Laminates boards using foil/veneer/formica or bidding.

Lathe Machine Operator – Machines timber according to drawing/template/ sample and measurements to attain suitable specification design by machine.

Light Duty Driver – Drives a vehicle classified under class four (4).

Messenger/Driver – Uses a motorbike or a light vehicle to collect and deliver documents or goods.

Router Machine Operator – Cuts board/timber according to a given template.

Spring Making Machine Operator – Makes springs for the furniture industry.

Vacuum Pressing Machine Operator – Operates a pressing and wrapping machine which uses a vacuum system.

Veneer/Foil/Formica Pressing Machine Operator – Presses and laminates using any form of adhesive.

Grade F

Leading Hand – Leads a small section of employees in a department under the control, of a supervisor.

Saw Doctor – Sharpens blades/saws of all cutters in a furniture manufacturing plant using a machine.

Spindle Operator – Grooves, moulds, rebates, scoops and shapes the wood or boards using a jig/template on a spindle machine.

Grade G

Carpenter – Reads a cutting list, writes in any alteration and additions to that list as instructed, cuts, sews and upholsters using any or all of the machines within the required discipline of his operation to produce final product.

Costing Clerk – Is employed to cost from stock sheets of completed products, components, materials and labour, whose duties may include computing standard monthly profit and loss account. Works at landed cost of imported items and stock taking.

Invoicing Clerk- Is employed in the dispatch and his responsibilities are receipting, documentation and execution of orders and writing of rail-notes.

Jig-Maker – Prepares jigs for the machine for easy cutting of timber/board.

Quality Controller – Checks the quality of products made/produced in a particular department to maintain the standard.

Receptionist/Typist – Operates a switchboard for incoming and outgoing telephones, welcomes visitors and customers, types memos, invoices, posts letters and receives incoming mail.

Site Fitter – Takes components and makes measurements and designs to the site.

Stores Clerk – Records information of goods received and dispatched by the storeman through a cardex or computerised system.

Grade H

Heavy Duty Driver – Drives a truck/bus falling under class one (1) or class two (2).

Mechanic Maintenance – carries out general maintenance of factory machines including servicing and lubricating machines as well as replacement of worn-out parts (semi-skilled worker).

Storeman – An employee who is in charge of stores/warehouse and for delivering goods in a store or a warehouse to departments for dispatch/use.

Supervisor – Directly controls workers in his department.

Welder (Semi-skilled) – Joins pieces of metal together using gas or electric powered machine.

Grade I

C.N.C Programmer – Creates/programmes or designs to be done by a machine as required.

Estimator – Means an employee who is employed to cost from stock sheets of completed products, components, materials and labour, whose duties may include computing, working at landed cost of imported goods from a store or warehouse to departments for dispatch, project costing.

Job Chaser – Chases components/carcasses in a factory to attain a unit or set for loading.

Senior Supervisor – Supervises other supervisors below his/her grade.

Wages Clerk – Means an employee who is employed in one of the following operations; wage records, personnel, administration and control.

Grade J

Administrator – A person whose job is to supervise and or manage a task, department or a project.

Boiler Attendant – Loads and offloads firewood/coal to a boiler, checks and maintains a constant temperature of a boiler.
