Statutory Instrument 127 of 2026.

[CAP. 13:19

Electricity (Net Metering) (Amendment) Regulations, 2026 (No. 2)

IT is hereby notified that the Minister of Energy and Power Development, after consultation with the Zimbabwe Energy Regulatory Authority, in terms of section 65 of the Electricity Act [*Chapter 13:19*], has made the following regulations:—

1. These regulations may be cited as the Electricity (Net Metering) (Amendment) Regulations, 2026 (No. 2).

2. Section 2 of the Electricity (Net Metering) Regulations, 2018, published in Statutory Instrument 86 of 2018 (hereinafter called the "principal regulations") is amended by the repeal of the definition of "net metering" and the substitution of—

"net metering" means a system of metering electricity under which a participant who wishes to use the electricity distribution licensee's grid as a virtual battery bank generates and delivers electricity from a renewable energy source to the distribution licensee's grid and may be used to offset electric energy provided by the electricity distribution licensee during the applicable billing period;".

3. The principal regulations are amended by the insertion of a new section after section 10—

"Virtual net metering

10A (1) In this section–

"virtual net metering" means an arrangement where a point of supply or a group of supplies can transfer banked credits to another point of supply or group of supplies within the same area or in different areas.

(2) An application for virtual net metering shall be made to the distribution licensee, accompanied by the following requirements—

(a) proof of ownership or lease of the facilities;

(b) agreements which prove a commercial relationship; and

(c) net metering certificate.

(3) The distribution licensee shall, within twenty-one days, determine the application for virtual net metering referred to in subsection (2) and—

(a) approve the application; or

(b) reject the application and give reasons.

(4) Upon approval of the application referred to in subsection (2), the participant shall bear the costs associated with integration of the net metering to the distribution licensee's control centre.".

4. Section 11 of the principal regulations is amended—

(a) by the repeal of subsection (2) and substituted as follows—

"(2) Participants shall—

(a) be paid for the cumulative excess energy exported to the grid at the end of the annual billing cycle; and

(b) pay the taxes prescribed by the Minister of Finance; and

(c) pay any other levies applicable to those who monetise their excess energy at the end of the billing cycle.";

(b) by the insertion of a new subsection (3a) after subsection (3)—

"(3a) The reconciliation procedures and conditions for rollover of excess generation or net exports referred to in subsection (3) shall be monetised at rates approved by the Authority in consultation with the Minister in terms of the tariff code.".
